AZALEE GRACIER

-What I do for brides

I think my strongest skill as a makeup artist is my communication! I mean my foundation tone matching is pretty on point too. But I feel that my work is as beautiful as it is and my brides are as happy as they are because of the strong communication we have to create the perfect makeup.

- I have a particular set of skills

What I can provide to you is more than some killer dad jokes or a flawless hair and makeup combo. But a sense of calm and trust that you'll still be your authentic self at the end of the session.

-Favorite rom-com

My favorite romantic comedy would have to be Pride Prejudice and Zombies. A classic tale of teen angst, romance and zombies of course!

-Makeup philosophy

My makeup philosophy is less is more but add the lashes. But really! Stay true to you but with a twist!

-Why I love weddings

I LOVE working weddings because of the absolutely hilarious stories, connections and all out shenanigans that come with being in such an intimate vendor position. We get to see you at some of the best and memorable moments of that morning. When everyone is either pouring coffee or champagne. Talking about the wonderful sleep they got the night prior or how some of you are still up from the night! I'm so grateful to be a part of these tidbits of life and love.
